

Insert A Cell Data Sheet Model PLR-100

Horizontal Leg Supported Vessels

A = _____
 B = _____
 C = _____
 D = _____

Capacity (C) _____ T, MT, other

Is Bin Physically Connected Other Than Gussets? _____

- _____ Roof
- _____ Discharge Support
- _____ Additional Cross Beams

Can Bin Be Emptied For Calibration? _____

Shear Formula:

$C / \{2(N)(TW \times D)\}$
 C = Net Capacity of Bin
 N = Number of Support Gussets
 TW = Web Thickness Support Beam
 D = Height Support Beam
