

WEIGH BELT FEEDER DATA SHEET

DOC1001

Customer: _____

Date: _____

End User _____

Reference: _____

1) Quantity: _____

2) Feeder Location: Indoor Outdoor

3) Material/Product: _____

4) Product Size (Inch or Mesh): _____

5) Bulk Density (PCF): _____

6) Material Characteristics: Abrasive Bridges Floodable
 Free Flowing Packs Sticky Other

7) Maximum Feed Rate (STPH): _____

8) Minimum Feed Rate (STPH): _____

9) Feeder Inlet Dimensions: Standard Special - Specify Dimensions

9) Feeder Length (Inlet to Discharge) (Feet): _____

10) Constant Speed Drive or Variable Speed: Variable Constant

(If variable speed, AC or DC) AC or DC

11) Covers: None Full Top Sides Bottom

12) Discharge Chute Required? No Yes

13) Drag Cleanout Required? No Yes

14) Electronics: Integrator PID Controller

15) Optional Remote Devices: _____

16) Pre-Feeder: Bin Rotary Valve Other-Explain

17) Materials of Construction: _____

18) Additional Notes: (Area Classification, Temperature, Power, Venting, Special Paint, Other)
